# BCS Dashboard

Want to be able to view business data at your finger tips in an easy to understand, visually aesthetic view?

The BCS Dashboard is what you need to help run your business. With a number of pre-set queries that provide you with critical business information you could be looking at your business in a different light.

With the ability to report on items including project statistics, workloads. inspections, invoicing and budgets, by calendar, financial or multi year the BCS Dashboard is a MUST for any building compliance business.
