BCS

NATIONAL INDUSTRY LEADERS IN BUILDING COMPLIANCE SOFTWARE

The BCS team has extensive experience in the Building and Construction industry. We have provided technical innovation to this sector since 2007 and continue to do so at an ever-increasing pace.

Our mission is to deliver solutions and intelligent insights that make a difference. The industry contains ever evolving businesses that require consistent, current regulatory compliance and modern business practice: these are our underlying value services. At BCS we are determined to challenge ourselves to continually find smarter, simpler and more efficient ways of providing value to our customers.

Compliant sets of state specific templates

Our Team

Our team, all based in Australia, comprises 7 customer focused staff along with 4-6 developers working behind the scenes.

Dean Wilson
General Manager
With 30+ years experience working in finance, insurance, government building authorities and private sector software, Dean is well placed to steer the BCS ship. "BCS has so much potential to assist industry professionals - understanding our clients and continuing to form alliances with industry associations is important to our continued growth".

Andrew Ross
Sales Executive
Andrew started in the construction & project management software industry in 2009 joining BCS in 2017. "Building compliance is such an important and fascinating industry, much more comprehensive than people realise. The time I spent in our support team was crucial to have a clear & robust understanding in finding solutions for prospective clients"
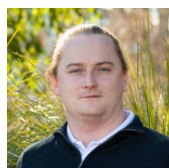

Chiara Wallace
Application Support Analyst
Chiara's major in university was computer applications and her first job was with an IT Company but later she shifted to teaching. Moving to Australia, she wanted to push herself and see if she could work for an IT Company again. "BCS gave me the opportunity to explore that, revisit old skills and build new ones".

Anthony Portugal
Implementation Consultant
Coming from a client support background in the finance and retail industry Anthony has learned and built his experience in helping and serving customers. "I try to channel this enthusiasm into guiding clients through the implementation process as they get to know BCS".

Thomas Walters
Quality Assurance Engineer
Tom's background in environment and planning legal administration and his passion for tech means he's found a natural home at BCS. "I'm very proud to be a part of the BCS team. It's a great product and it's very rewarding meeting and assisting our clients."

Melanie Jackson
Sales Support
Mel's background is mainly the construction industry. Prior to commencing with BCS, she was employed by MBAV focusing on implementation of business improvement system, while training and assisting all staff in all aspects of certification software. "Our team is very professional and customer service focused, which is evident in everything we do".

Jason Brookfield
Application Support Analyst
Having recently completed a Bachelor of Computer Science, Jason comes to BCS with a fresh range of technical skills that will assist him in interpreting the most intricate of customer support requests. "BCS is a perfect place for me as it perfectly combines my knowledge of the industry and passion for software".
